

Imagine being able to time travel and unlock the secrets of Connecticut's history, all at your fingertips! I'm [redacted], and my team, the Mad Hatterz, crafted an app that will help you do just that! Prepare for a journey through time as you delve into CT's rich history with our app, CT Explored Guided Tours.

We partnered with CT Explored, a nonprofit committed to uncovering the essence of Connecticut's uniqueness and sharing it with the people of our state.

Together, we aim to immerse you in the depth of CT's history. Our historic tours across multiple cities are enriched with images and insights, leaving you with a greater sense of belonging. But that's not all!

We've added a twist by gamifying your journey. Share your adventures on Instagram to earn points and compete with friends on the leaderboard we've created. The more locations you visit and post about, the more points you get, and the higher you climb on the leaderboard! Get ready to time travel with us and learn what makes Connecticut truly special. CTExplored Guided Tours: where history comes to life and the past meets innovation.
